Professional Summary

Results-driven IT Infrastructure and Cybersecurity Professional with over 8 years of experience specializing in building reliable systems and networks that empower businesses. Currently focusing on Cybersecurity as part of the Blue Team, committed to protecting organizations from evolving cyber threats, conducting threat hunting, and ensuring digital resilience through robust security frameworks.

Core Competencies & Technical Skills

- **Cybersecurity & Blue Team:** SIEM, EDR, Threat Hunting, Incident Response, Vulnerability Remediation, Endpoint Security.
- **Network Security:** Firewall Configuration & Management (Fortigate, Palo Alto, Cisco), Routing & Switching.
- **Systems & Virtualization:** Windows Server, Linux, VMware vSphere, Hyper-V, Proxmox.
- **Tools & Technologies:** SentinelOne, Trend Micro, Tanium, Veeam, Unitrend, Active Directory, Microsoft 365.
- **IT Operations:** Computer Troubleshooting, Disaster Recovery, Backup Solutions, IT Asset Control, SOP/Work Instruction Creation.

Work Experience

PT Autocomp System Indonesia

2023 – Present

IT Infrastructure & Security Specialist

- Monitored and analyzed security events using SIEM and EDR solutions (SentinelOne, Trend Micro) to detect and mitigate cyber threats.
- Managed endpoint security and vulnerability remediation across the enterprise using Tanium.
- Configured and maintained network security policies using Fortigate and Palo Alto firewalls to ensure secure connectivity.
- Conducted proactive threat hunting and incident response procedures to mitigate risks and maintain regulatory compliance.
- Managed and maintained physical and virtual servers (Hyper-V, VMware, Proxmox), ensuring high availability and optimal performance.
- Configured and monitored network devices and firewalls (Cisco, Fortigate, Palo Alto) to maintain secure and stable network infrastructure.
- Implemented and managed backup and disaster recovery solutions (Veeam, Cloud, Unitrend) to safeguard critical business data.
- Provided advanced troubleshooting and support for complex infrastructure-related issues across Windows and Linux environments.

- Managed user identities, access controls, and permissions through Active Directory and Microsoft 365.
- Managed IT asset control and created comprehensive work instructions and Standard Operating Procedures (SOP).

PT Changshin Reksa Jaya

2015 – 2022

IT Support Specialist

- Managed user accounts, permissions, and email systems using Active Directory and Microsoft Exchange.
- Supported end-users by troubleshooting hardware, software, and network issues, ensuring minimal system downtime.
- Installed and configured operating systems, applications, and peripheral devices across Windows and Linux environments.
- Troubleshooted and resolved IT incidents efficiently via enterprise ticketing systems.
- Configured security patches, antivirus solutions, and remote access tools to maintain overall system integrity.

Education

SMK Teknik Mechatronic]

Yayasan Pembina Pendidikan Teknologi, Garut

2010 – 2013

Certifications & Training

- Cisco Certified Network Associate (CCNA)
- VMware vSphere
- FortiGate Network Security Administrator
- Linux System Administrator
